

**Sub: A Call for Papers to the 3<sup>rd</sup> International Digital Conference on January 18-19, 2019 at IMT Hyderabad, India.**

Dear Sir/Madam,

Greetings of the day!

We are delighted to invite your participation in the 3<sup>rd</sup> International Digital Conference by Institute of Management Technology, Hyderabad with the support of AMDISA. We invite doctoral students, research scholars, academicians, industry professionals and consultants to submit papers on the topic "**Digital Practices and Trends in Emerging Economies: Social & Business Perspective**", which would be held on January 18 and 19, 2019. [CLICK HERE](#) for more information.

The two-day conference brings together researchers, academicians, industry consultants and corporate professionals to discuss diverse aspects of Digital Practices and Trends in Emerging Economics. The conference in its 3<sup>rd</sup> year is a registered conference with ISBN No: 978-93-5268-308-6 to provide an avenue for sharing significant contemporary ideas and practices across the board on the topic of digitalization.

The papers which are selected for presentation in the conference would be published in the form of proceedings with ISBN number.

Extended version of conference presentation, selected on the basis of content and quality will be invited for review and potential publication in the special issue of International Journal of Environment, Workplace and Employment (An Inderscience Journal, Scopus Indexed, and ABDC-C category).

It is imperative that research outcomes have implications for the industry and it is the practitioners who make that a viable option. The insights from practitioners, in return enrich theory and facilitate further research for academicians. Hence we truly believe that both the academicians & practitioners have significant ideas and experience that will be valuable for people from the academia and industry alike. So we welcome conceptual papers, working papers, white papers, viewpoints, case studies, consultancy reports and poster presentations on different aspects of digitalization in emerging economies.

This event is a gathering of hundreds of "thoughtful, iconoclastic doers" from around the world who share a common interest in practical solutions for sustainable development through global innovation.

We request you to participate and share this mail to whom it may find beneficial.

For enquiries regarding the submission process please contact us at [markcon@imthyderabad.edu.in](mailto:markcon@imthyderabad.edu.in)
