International Conference on
“Sustainable Human Resources Management: Practices, Policies and Perspectives in South Asia”
By School of Management Studies,
University of Hyderabad and ICFAI Business School,
Hyderabad on 1st and 2nd November, 2018

An AMDISA Supported Programme

With over 21 per cent of world’s population (1.6 billion) occupying 3 per cent of world’s area and contributing 3.8 per cent of the global economy as of 2015, the South Asian region comprising Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan and Sri Lanka is an important geopolitical union of nations. The region is plagued by extreme poverty, mega-urbanisation, immense disparities between the rich and the poor and fundamental problems in the areas of infrastructure, energy and the environment (Delinic, 2011). There is tremendous opportunity for cooperation among South Asian nations for sharing best practices and discussing policy implications. With vast population, the concerns for the region are gross enrolment ratio (GER), youth unemployment, poverty, economic development, infrastructure, technological developments, industrialization, etc. Social and economic issues of the region are linked to the human development and management of human capital.

Conference Group Photo
Dear Readers,

Greetings to you all!

On behalf of AMDISA, I extend my hearty congratulations to Prof. Y K Bhushan, Senior Advisor & Campus Head, IBS Business School, Mumbai on receiving the prestigious Qimpro Platinum Standard 2018 (Education) Award on 16th November, 2018.

I appreciate the timely and scholarly contribution made by Dr. Sudarsanam Padam in his note “Inculcating a Culture of Research—Some Reflections”.

This interesting issue of the AMDISA newsletter brings to you details of the “International Conference on Sustainable Human Resources Management: Practices, Policies and Perspectives in South Asia” organized by School of Management Studies, University of Hyderabad and ICFAI Business School, Hyderabad on the 1st and 2nd of November 2018. The conference was very well received and saw participation from 185 delegates from all South Asian countries as well as from Australia, Malaysia and West Indies.

The issue also covers the commemoration of the SAARC Charter day at the AMDISA office and celebrations at various member Institutions.

You will also find news and snippets of the several International Conferences held at various member institutions which were AMDISA supported programmes.

News from Member Institutions regarding various symposia and conventions that were organized is covered in this newsletter.

I am sure you will enjoy this issue of the newsletter.

I wish all readers a happy reading!

Ashok R Joshi

“International Conference on “Sustainable Human Resources Management: Practices, Policies and Perspectives in South Asia” (Contd. from page. 1)

It is apt to focus on issues on management of human resources and more so on sustainable HRM practices in the region. The regional imperatives entail the social, economic and environmental issues, often referred to as the triple bottom line approach (Figure 1).

The focus of this conference was thus the burning issues of social, economic and environmental issues of people management – HRM. More specifically, sustainability, which focuses on the long term oriented approach, normally associated with environment is being recently discussed. In the broader environmental concern of sustaining the people management practices in organizations, the two-day conference aimed at serving as a platform to discuss, deliberate, discover, innovate and deliver the emerging issues in sustaining the environment, social and economic agenda of organizations from a multi-dimensional and multi-disciplinary perspective. Scientists, social scientists, management scientists and all others interested in sustainability issues have participated in the conference.

Objectives

The conference had the following objectives

• To examine Sustainable HRM as an emerging issue / discipline
• To analyse the contemporary research on Sustainable HRM
• To get clarity on key issues / trends / patterns in Sustainability
• To have understanding of Sustainable HRM and its relevance to industry
• To identify the sustainable HRM practices
• To network with other HR fraternity on sustainable HRM for future research

The Conference

The Conference was jointly conducted by the School of Management Studies, UoH, and the IFHE, Hyderabad, and supported by AMDISA, Hyderabad. It was structured in Plenary, Panel discussion and technical sessions spread over the two days along with the inaugural and valedictory sessions. The distinguished lecture on Sustainable HRM by Shri Amitabh Kant, CEO, NITI AYOG, Government of India, was the highlight of the conference. About 185 delegates attended and 98 delegates presented papers representing all South Asian countries including Australia, Malaysia, West Indies, etc.

The Conference started with the Inaugural Session on the 1st November, 2018, at the Conference Hall of the School of Management Studies, University of Hyderabad. The session started with a welcome by Prof. V. Jyothi, Dean, School of Management Studies, UoH, and overview of the conference given by Prof. V. Sita, the convener of ICSuSHRM-2018. Addressing the delegates, Prof. V Appa Rao, VC, University of Hyderabad, welcomed the delegates and underscored the need for efforts to not only attract but also sustain the motivation of people in the activities irrespective of the sector. Prof. J. Mahender Reddy, VC, IFHE, highlighted the contemporary economic scenario and the importance of people in the developmental agenda of nations. Dr. Sugumar Mariappanadar, Australian Catholic University, was the Chief Guest. In his keynote address, he traced the evolution of Sustainable HRM and highlighted the status of the concept as established by research. Dr. M. Bhaskara Rao, the Co-Convener, proposed a vote of thanks.

The first panel discussion was addressed by Shri Srikanth Surampudi, GM, HRM, TCS. He presented the practices in the IT sector and answered the questions raised by the delegates. Shri Aniruddha Dasu, Senior VP, Virtusa, explained how organizations made efforts to sustain the human resources in India and globally. He provided his perspective of SHRM drawing from his wealth of rich experience in the IT sector. The Panel was moderated by Prof. V. Sita. This was followed by the technical sessions where about 45 papers in ten simultaneous tracks have been presented by the delegates.

A distinguished lecture on the future of Sustainable HRM was given by Shri Amitabh Kant, IAS, CEO, NITI AYOG, Government of India. He spoke about the Sustainable Development Goals and the experiments in the Indian context. He spoke in detail about the concept of SHRM, the policy guidelines, and the practices of organizations and the Government of India towards achieving the objective of sustainable HRM.

The Second day started with a Plenary by Ms. Sangeeta Menon, the Country head of Emerald Publishing. She explained the role of academic institutions in bringing rigor in publications and suggested guidelines for quality publications in
Prof. Appa Rao Podile, Vice Chancellor, UoH, inaugurating the Conference and others from left to right are Dr. P. Jyothi, Dr. V. Sita, Prof. J. Mahender Reddy, Dr. Sugumar Mariappanadar and Dr. M. Bhaskara Rao

journals, drawing from her experience in Emerald Publishing. This was followed by a panel discussion on SHRM. The panellists – Shri M. Gopalakrishna, IAS, Retd., spoke about the efforts made by the public sector in India citing various examples. Along with Sustainability at the individual level. Dr. Swaminathan Mani, VP, The Mahindra, discussed the policies and practices of organizations in India and abroad. Dr. Sugumar Mariappanadar, traced the evolution of SHRM and provided the research perspective of SHRM. The Panel was moderated by Dr. M. Bhaskara Rao. This was followed by the simultaneous tracks where another 45 papers were presented by the delegates on the various issues of SHRM. The valedictory session was addressed by Dr. Jibitesh Rath, GM, NMDC, where he spoke about the efforts of public sector like NMDC on the SHRM issues. Shri C. Ramakrishna, Executive Director, AMDISA, was the Chief Guest. He explained the South Asian Perspective of Sustainability and efforts of South Asian nations on the issue of SHRM in the region. The conference ended with a Vote of Thanks by the Convener, Prof. V. Sita, of the School of Management Studies, University of Hyderabad.

Findings & Recommendations

• Sustainable HRM is the future of HRM, engaging HR to facilitate organizations/ stakeholder’s relationships for achieving corporate sustainability/ business strategy.
• Sustainable HRM provides organizations with a sustainable oriented version of HRM systems, policies, practices to synthesise the competing and the inconsistent financial, human wellbeing and environmental incomes of corporate sustainability.
• Sustainable HRM is a theoretical domain and not a construct, providing immense opportunities for research and practitioners to explore/ enrich understanding of the emerging new discipline simultaneously benefiting both the organizations and stakeholders.
• Sustainable HRM is an emerging field of study for HR scholars seeking to contribute to improving the current and future lives of employees/ communities worldwide.
• The theoretical, cultural and methodical perspectives being employed in the field promises to produce useful insights that can be deployed to promote economic and social development.
• Sustainable HRM also improvise the work processes that influence individuals and organizations. Thus, it requires effort from the organizations for practise/ success stories/ bench marks and equally scholarship to come out with quality research.
• Sustainable HRM has developed rapidly over the last one decade, although it is still unclear on what it entails.
• As it is practiced on ground in organizations, Sustainable HRM can be looked as an approach of HRM, which develops managers who can deal with the present and future sustainability challenges facing organizations. Although, there is research on different dimensions of HRM, such as diversity management and Green HRM, there is very little literature about firms that practice Sustainable HRM, thus requiring more work in organizations and more scholarly research in the field.
It is imperative that HR academics and practitioners embrace the challenge of sustainability. Both the corporations worldwide and then the scholars are working towards the sustainable approaches for the organizations. HR academics and HR professors worldwide would greatly benefit to utilise the conference as a platform to share ideas and network to cater to the future challenges of Sustainable HRM.

Commemoration of SAARC Charter Day - AMDISA
8th December, 2018
AMDISA Secretariat, Hyderabad, India

The SAARC Charter Day Commemoration Function was organized by Association of Management Development Institutions in South Asia (AMDISA), Hyderabad, India - a SAARC Recognised Body on 8th December 2018. The Charter Day Meet witnessed a galaxy of experts representing academia and industry. The meet started with the ‘Welcome Address’ by Mr. C. Ramakrishna, Executive Director, AMDISA who highlighted the importance of SAARC and read out the Message from H.E. Mr. Amjad Hussain B. Sial, Secretary General of SAARC as well as Special Messages issued by the Leadership of the Member States of SAARC sent by the SAARC Secretariat. His address was followed by the opening remarks by Dr. S. Padam wherein he spoke on relevance of SAARC and the need for collaborative research among SAARC countries.

Prof R K Mishra, Director, Institute of Public Enterprise, Hyderabad, India, the Chief Guest of the function delivered address on “Strengthening SAARC through Responsible Management Education: The Role of Accreditation”. In his address, Prof Mishra gave an exhaustive overview of the countries that are included in
SAARC. It was observed that the binding factors in South Asia are: Common history and heritage and geographical connection; heterogeneity; diversity and opportunity; governance structures; systems and processes influenced by their Colonial past; and strong linkages to Central and West Asia and also with Southeast and East Asia in terms of trade and commerce. It was informed that beyond economic development, SAARC countries share a spirit of friendship and cooperation among communities. With growth topping 6.9 percent in 2018 and set to accelerate to 7.1 percent next year, South Asia is firming up its position as the world’s fastest-growing region, further extending its lead over East Asia and the Pacific.

The main Challenges of SAARC include: Promoting peace, stability and cooperation among South Asian countries, increase the quality of life of the people in the region, reducing the trade barriers through South Asian Free Trade Agreement (SAFTA), maintaining good relations with neighbours and having mutual economic cooperation through South Asian Preferential Trade Agreements (SAPTA) and accelerating social progress and cultural developments through various initiatives. It was stated that the cultural and ethnic identities though a strength makes it tough for the member countries to come together. Economic development was the main agenda since most of the members are in poor economic state. India constitutes almost 70% of SAARC’s area and population. Its role is very crucial and there is need to work and invest more than the other countries to strengthen SAARC like Germany did for European Union.

Prof Mishra in his address also reiterated on the need for providing quality management education as it can link with socio, economic and environment development. The agenda of Sustainable Development Goal (SDG4) - Education 2030 is about transforming education and addressing the unfinished business of EFA and MDGs. Likewise, the agenda is also about addressing the challenges of the present and those that may arise in the future in achieving SDG4 within and across countries in the SAARC region. He also addressed on the need for global accreditations of the management institutions and the role of AMDISA that provides SAQS (South Asian Quality Assurance System) accreditation, which involves mentoring, self-assessment documentation, peer review and apex committee evaluation. It was strongly suggested that SAQS should be equated with EFMD and other global accreditation bodies/agencies and should be considered under Triple Crown category especially for SAARC countries.

To sum up, Prof Mishra reiterated that SAARC should act as a pressure group:

- To create a niche for outcome based management education
- Need to strengthen management education- quality?
- Syllabus – contextualization
- SAARC related problems to be included in teaching and learning
- SAQS accreditation mandatory for providing exposure and status for the institutions to meet global standards specially in SAARC countries
- Developing responsible leaders
- Developing Negotiation skills
- Push in creativity and innovation
Commemoration of SAARC Charter Day - AMDISA Member Institutions

a. Indian Institute of Cost and Management Studies & Research (IndSearch), Pune, India

The South Asian Association for Regional Co-Operation (SAARC) 34th Charter Day was celebrated at IndSearch (Indian Institute of Cost and Management Studies & Research, Pune) on Saturday, 8th December 2018. Dr. Ashok Joshi-Former President AMDISA delivered the inaugural address. The other guests present were Dr. Aparna Tembolkar-Director, Dr. Sunita Joshi- Dean and Dr. Praveen Saptarshi, Professor Emeritus, Savitribai Phule Pune University.

A presentation competition was held for the Bachelor of Management Studies (BMS) students of IndSearch. The participants were given an array of topics to base their presentation: Is China a threat to the SAARC nations, Can Asia lead the world, Environment issues in SAARC countries, SAARC countries: resourceful yet hungry, Spirituality for peace in SAARC countries- journey from buddha to Dalai Lama.

Prof Mishra’s address spawned an exhilarating discussion on the need for strengthening quality management education, responsible role of regulatory bodies, opening up research avenues in management and the need for strengthening challenging relationships amongst SAARC countries and equating the SAQS Accreditation on the same level with other Global accreditations like AMBA, EFMD, AACSB while ranking management institutions in SAARC Countries.

His presentation was followed by interactive session where participants from AMDISA’s network, invited academicians and other participants attended the session.

Mr. T. Ganeswar Rao, Manager, Membership Services & Programmes, AMDISA, gave Vote of Thanks.

b. K J Somaiya Institute of Management Studies & Research, Mumbai, India

The International Business Summit was a one-day event aimed at providing exposure and knowledge to all students of PGDM- International Business and industry delegates regarding aspects of International Business which are vital, as corporate nowadays are aiming at becoming global and expanding the scope of their operations. The theme of the event was “Future of SAARC”. The summit featured many engaging activities that enhanced knowledge like panel discussion among prominent industry personalities on the topic “Business in SAARC nations & its future scope”,

- To develop sustainable societies
- To balance economic development and social development

Mr. T. Ganeswar Rao, Manager, Membership Services & Programmes, AMDISA, gave Vote of Thanks.
a keynote speech and a Business-Plan competition. The event was organized on the 8th of December, 2018, a Saturday, at K J Somaiya Institute of Management Studies & Research, Mumbai by International Business Society @ SIMSR and the day is also recognized as **SAARC Charter Day**.

c. International Management Institute (IMI) Bhubaneswar

International Management Institute (IMI) Bhubaneswar observed 08th December 2018 as SAARC Charter Day. To commemorate the occasion, the 4th International Conference on “Global Business Environment” was organized. The theme of the conference was “Industry 4.0: Business Beyond Boundaries.” The objective of the conference was to provide a platform for discussion and dissemination of knowledge related to the cutting edge issue of the 4th industrial revolution which has widespread ramifications for the world, in general, but for the SAARC region, in particular.

The Inaugural Address for the International Conference was delivered by Dr. Tilak Rawal, former Governor of Nepal Rastra Bank and former Member of Parliament of Nepal. He addressed the audience about the geo-political scenario and its impact on business governance. Prof. Ramesh Behl, Professor & Director, IMI Bhubaneswar welcomed the delegates from India and abroad. Prof. Behl outlined the objective of the conference as: to bring together international delegates for rich discussion on reviewing and learning lessons about the 4th industrial revolution and its cascading influence on business practices, in particular reference to SAARC countries. Prof. Rajagopal, Professor & National Researcher, EGADE Business School, Mexico City, Mexico set the tone of the conference by emphasizing on developing new visions and business perspectives to match with the changing political ideologies in emerging markets such as SAARC.
The Department of Business Administration, Daffodil International University (DIU) is an active member of the Association of Management Development Institutions in South Asia (AMDISA), a SAARC recognized body celebrated the 34th Charter Day of South Asian Association for Regional Cooperation (SAARC). Mr. M. Humayun Kabir, Former Ambassador, People’s Republic of Bangladesh was present as Chief Guest in the program.

Prof. Dr. Mohammed Masum Iqbal, Dean, Faculty of Business & Entrepreneurship presided over the program. Mr. Gouraga Chandra Debnath, Head of the Department, faculty members, and a good number of students were present in the program.

While addressing as the chief guest, Mr. Kabir shared his long experience about SAARC and its development for the welfare of South Asian region and its potential role of regional collaboration with the diverse culture, geographic and diversity of the environment. He emphasized to make the young generation to be globally skilled to ensure the growth of SAARC countries.

AMDISA Secretariat observed the International Women’s Day on 8th March, 2019. A freewheeling get together of all staff was held wherein the spirit of the International Women’s Day came to the fore.

Certificate Awarding Ceremony of Advanced Certificate in Business Administration (ACBA) at IBA, Dhaka, Bangladesh

The Institute of Business Administration (IBA), University of Dhaka held the certificate awarding ceremony of Batch 12 of ‘Advanced Certificate in Business Administration (ACBA)’ at IBA Auditorium on Friday, November 30, 2018. ACBA is a joint offering by IBA, University of Dhaka, and the Association of Management Development Institutions in South Asia (AMDISA).

Participant receiving the award certificate from the Chief Guest

Professor Dr. Nasreen Ahmad, Honorable Pro-Vice Chancellor (Academic) of University of Dhaka was the Chief Guest of the ceremony. Professor Dr. Abdur Rab, Former Director of IBA and Past President, AMDISA joined as a Special Guest. The Director of IBA, University of Dhaka, Professor Dr. Syed Ferhat Anwar presided over the event. Ms. Sutapa Bhattacharjee, Coordinator, Management Development Program (MDP), IBA and Professor Dr. Md. Mohiuddin, Moderator of ACBA addressed the participants.

A representative of ACBA Batch 12 shared their views on the program and remarked that this course has added a fresher perspective in their lives which will help them to become more efficient managers. They also were very excited about the networking they had during this course and remarked that this bonding will help them reach newer heights.

Professor Dr. Abdur Rab heartily congratulated the participants for successfully completing the very demanding course. He noted that to adapt in the ongoing changes in the business environment, these kinds of refresher courses are a must.

Professor Dr. Nasreen Ahmad, Honorable Pro-Vice Chancellor (Academic) of University of Dhaka encouraged the participants to always pursue knowledge and said that, to be truly successful, one must observe, analyse and learn from past mistakes as well as connect with future possibilities. She highlighted the importance of such programs in managerial capacity building in this region. Dr. Ahmad mentioned that Bangladesh Government has decided to give high importance on training of the mid management level and ACBA is contributing in that regard. She also congratulated IBA, AMDISA, faculty members, coordinators and all ACBA participants for successfully running the program for more than 6 years.

Professor Dr. Syed Ferhat Anwar delivered the closing remarks and vote of thanks. He acknowledged the support by AMDISA and explained the rationale behind developing this program. He highlighted that this innovative program gives a unique opportunity to the participants from diverse background to learn from not only the course materials but also from each other’s experiences. He urged the participants to continue to show the zeal and integrity they have shown at IBA. He also declared that the objective of this course is keeping the training contemporary both in terms of soft skills as well as macro environmental changes at the global level. He congratulated the moderator for keeping the program both dynamic but equal to any global standards. He
expressed his sincere gratitude to Dhaka University administration and AMDISA headquarters for their cooperation in running the program successfully.

7. AMDISA Supported Programmes

i. Faculty of Business Studies, University of Dhaka, Dhaka, Bangladesh

3rd International Conference on Business and Economics on the theme “Shaping the Future through Inclusive Development”

The Faculty of Business Studies, University of Dhaka organized the third International Conference on Business and Economics on October 9-10, 2018. The valedictory address was presented by Dr. G. Anjaneya Swamy, Dean SOM, Pondicherry University.
iv. Institute of Management Technology (IMT), Hyderabad

**International Marketing Conference (MCEM - 2019)**

The Marketing Department of IMT Hyderabad, in support with AMDISA conducted the third edition of International Marketing Conference (MCEM - 2019) on January 18-19, 2019. The opening ceremony began with lighting the symbolic lamp. The event began on a propitious note, with Dr. Satish Ailawadi, Director of IMT Hyderabad followed by Chief Guest- Mr. Mukesh Rathi (CIO & CTO, DR. Reddy's Laboratories), Guest of Honor - Mr. Hitesh Kakkar (COO, CPM India) and Key Note Speaker - Dr. Geoffrey Clements (Chairman, Commonwealth Infrastructure Partners, United Kingdom). The guests spoke about digital transformation, key learnings from the digital world, integration of online and offline digital marketing trends and the challenges in the digital world. Nearly 40 papers were presented across 6 tracks on the theme “Digital Practices and Trends in Emerging Economies: Social & Business Perspective”.

The two day event was concluded with the Valedictory Session on January 19, 2019. On that note, IMT Hyderabad concluded yet another successful edition of International Marketing Conference MCEM - 2019 in support with AMDISA and ended with good vibes.

v. K. J. Somaiya Institute of Management Studies and Research, Mumbai

**6th International HR Conference on “Demystifying Team Dynamics”**

K. J. Somaiya Institute of Management Studies and Research successfully hosted the 6th HR Conference on “Demystifying Team Dynamics” at its campus on 1st and 2nd February, 2019, where many National delegates participated.
vi. Jaipuria Institute of Management, Jaipur

6th International Conference on Youth 2025

Jaipuria Institute of Management, Jaipur was privileged to organize 6th International Conference on Youth 2025 on 15-16 February, 2019 on the theme “Redefining Business and Society in the Age of Information Technology” glorifying youth as innovators, trendsetters, and leaders in the digital era.

Shri Sharad Jaipuria, Chairman, Jaipuria Institute of Management welcomed the delegates and the students. Dr. Prabhat Pankaj, Director of Jaipuria Institute of Management, Jaipur regarded technology as the modus operandi that will redefine the human civilization. Honourable Shri Bhanwar Singh Bhati, Minister of Higher Education, Government of Rajasthan, Jaipur was the Chief Guest. He connected with students through video conferencing and appreciated Jaipuria for its hard work to host the conference.

The most awaited session of the day was interaction with Padma Bhushan Dr Abhinav Bindra, Olympic Gold Medalist – Shooting, Arjuna Award Winner. He shared his story with the students and also patiently answered all their questions.

The conference had three plenary sessions, “The Rise of Startups” chaired by Mr. Chintan Bakshi, COO, Start-up Oasis, Jaipur, “Women in Digital Era” chaired by Bela Badhania CEO, Adhut Jewels, Jaipur and “Human Wellbeing and Happiness in Digital & Artificial Intelligence Era” chaired by A Ajay, Joint Secretary (DPA 1), Ministry of External Affairs. A. Ajay Kumar also shared his experience of Iraq rescue operation.

The conference hosted a session where students got an opportunity to meet and interact with the authors like Nistha Tripathi, Author of the book “No Shortcuts” and Ray Titus, Author of the book “Round the clock”.

vii. Jagannath International Management School (JIMS), Kalkaji, New Delhi

XIVth International Conference on “Business Sustainability in the 21st Century: Managing People, Planet and Profit”

JIMS, Kalkaji, New Delhi in collaboration with PHD Chamber of Commerce and Industry (PHDCCI), Konrad Adenauer Stiftung (KAS), Germany and Association of Management Development Institutions in South Asia (AMDISA), organized its XIVth International Conference on the topic “Business Sustainability in the 21st Century: Managing People, Planet and Profit” at PHD House, New Delhi on Sat 23rd Feb 2019. The UN Global Compact Network India (UNGCNI) and the Association of Management Development Institutions in South Asia (AMDISA) are also Conference partners this year.

The Conference Inaugural Session was presided over by Mr. Peter Max Rimmeele, Resident Representative to India, Konrad Adenauer Stiftung (KAS), Germany as the Chief Guest. Other distinguished guests on the dais were
the Guests of Honour Dr. D.K. Banwet, Fmr. Vice Chancellor of University of Engg & Mgt, Kolkata, Mr. C M Krishna, Honorary Advisor, PHDCCI and Dr. (Cdr.) Satish Seth, Director-General, JIMS, Kalkaji, New Delhi.

The technical sessions provoked animated debate between participants and threw up in-depth perspectives on the Conference theme. A number of strategic approaches were suggested for corporate leaders to ensure that their businesses would survive and sustain in the 21st Century. These were followed by the Research Paper Presentation. Competition which had top academicians, research scholars and industry experts vying for the attractive cash prizes. The papers presented reflected high quality of research by the participants. Dr. Madhu Vij, Professor, FMS, Delhi University was the Chairperson of the Jury which included, Director, JIMS, Dr. J.K. Batra, Professor Dr. Preeti Singh and Prof. Neelam Tandon.

8. Forthcoming AMDISA Supported Programmes
a. ICFAI Business School (IBS), Mumbai
i. 3rd International Conference on Finance & Economics on the theme “Reforms, Regulation and Revival of the Financial Sector in India”
ICFAI Business School (IBS), Mumbai is organizing its 3rd International Conference Finance & Economics on the theme “Reforms, Regulation and Revival of the Financial Sector in India” on 5th April, 2019 at Hotel Kohinoor Continental, Mumbai, India.

This conference will strive to examine, understand and provoke actions in the financial sector on the three pillars of Reform, Regulation and Revival thereby augmenting the current discussions and deliberations on the financial sector. IBS Mumbai invites academicians, practitioners and policymakers to present their research, discuss and provide rich insights providing a platform for discussion and action on the topic. Eminent experts from the industry and academia will deliver keynote lectures and participate in a panel discussion on topics related to the conference theme.

ii. 2nd International HR Conference on the theme “Employee Engagement - DNA for Organisational Transformance - Paving the Path to the Next Level”
ICFAI Business School (IBS), Mumbai is organizing its 2nd International HR Conference on the theme “Employee Engagement - DNA For Organisational Transformance - Paving the Path to the Next Level” on 18th April, 2019 at IBS Campus, Powai, Mumbai, India.

This conference aims to explore existing and future employee engagement practices, cultures, strategies and create headways in building robust organisations.
The Conference Objectives are (i). Explore various dimensions of employee engagement in the organisational framework and culture, (ii). Design strategies and relook employee engagement regulations and practices to build organisational strength and (iii). Examine how employee engagement practices will emerge in future businesses and workplaces.

HR Professionals, Management Practitioners, Academicians, Researchers, Consultants, Experts, Corporate and Industry Professionals, Policy Makers and Students can attend this conference.

iii. 4th International Marketing Conference on the theme “Reimagining Marketing: Confluence of Creativity & Technology”

ICFAI Business School (IBS), Mumbai is organizing its 4th International Marketing Conference on the theme “Reimagining Marketing: Confluence of Creativity & Technology” on 27th April, 2019 at Hotel Meluha, Mumbai, India.

Marketing strategy today is at the crossroads of business needs and changing consumer desires. It is imperative for organizations to retain a competitive advantage in a challenging and constantly evolving market place. Organizations have to be absolutely sure that their brand plays a real purpose in consumers’ lives, connecting with their lifestyle, beliefs and self-image. Marketing strategy should include a clear relationship between the brand purpose and the role employees play to make this purpose real in the world. In many leading organizations, marketing is proactively unifying functions such as technology, corporate planning and finance to build forward looking scenarios and strategies for how to increase customer value. The ‘4th International Marketing Conference on Reimagining Marketing: Confluence of Creativity & Technology’ offers a platform to debate and promote collaboration and facilitates learning between academics and industry practitioners hailing from diverse fields of management in order to develop cutting edge marketing strategies in the foreseeable future.

b. ICFAI Business School (IBS), Bengaluru

10th International Conference on the theme “Developing Organizations for the Future: Re-Interpreting the Modern Business Landscape”

ICFAI Business School (IBS), Bengaluru, is organizing the 10th International Conference on the theme “Developing Organizations for the Future: Re-Interpreting the Modern Business Landscape” on 27th and 28th June, 2019 at IBS campus, Bengaluru, India.

The world today including India is witnessing a technological disruption in all spheres. Technology is expected to be the major enabling force for businesses in future through the transformation of supply chains, value nets, business models, work-styles and by the opening up of new global markets for expansion. The convergence of artificial intelligence, data mining, IoT, the next Internet, supply chain engineering, business process change and wireless E-Business is expected to create both disruptions and opportunities.

In this context, IBS Bangalore invites submissions for its Tenth International Conference on various trends that the business world is witnessing currently, major industry shifts and new technologies that will significantly impact businesses in the years ahead, and how the corporate world is preparing for the same.

The conference solicits contributions of research papers that address themes and topics related to finance, economics, marketing, HR and other related disciplines of management. Also, business cases or high quality research articles describing original and unpublished results of conceptual, empirical, experimental, or theoretical work in areas related to contemporary issues faced by the business community are cordially invited for presentation at the conference.

Corporate Executives, Faculty Members, Research Scholars, Students pursuing Management studies can attend this conference.

For details, please visit AMDISA’s website at http://www.amdisa.org/IBSB_10th_Int_Conf_2019.

Faculty of Business Studies, University of Dhaka, Dhaka, is organizing the 4th International Conference on Business and Economics on the theme “Spectrum of Opportunities through Innovation and Technology” on 29th and 30th October, 2019 at University of Dhaka, Dhaka, Bangladesh.
The objective of the conference is to bring academics and professionals to a common forum for developing strategies to meet the challenges of global business in the years to come. The conference will create opportunity to share experience, exchange new ideas, foster innovation and establish research relations among the participating individuals and institutions.

NEWS FROM MEMBER INSTITUTIONS

**i. School of Management Studies (SMS), University of Hyderabad (UoH), Hyderabad**

**Global Immersion Programme**

Globalization presupposes exposure to the global practices. This is true for businesses and business management too. The schools of study across the globe expose students to the theory through classroom sessions and business practices using simulation. As students advance in the learning process, their insights get enriched through an exposure to the global scenario. Global immersion program assume significance in this context. The purpose of such programs is to bridge classroom sessions and business practices in another country.

The UTSA immersion week, January 2nd to 7th, 2019 jointly conducted by the University of Hyderabad and the University of Texas San Antonio (UTSA) campus, USA with the following objectives:

- To provide an understanding of the region's business, economic, cultural, and political environment
- To achieve a working knowledge of local business practices through direct interaction with Top management/managers and officials
- To explore the value of different economic models as benchmarks for global business practices
- To promote intercultural awareness and communication.
- To dispel certain myths and educate the students on such issues in the Indian context.

In line with these objectives, the methodology was a combination of classroom sessions, panel discussion, interactive learning, experiential learning and exposure to business/management practices of organizations, small/medium enterprises and culture/heritage of India. The top management, business executives, government officials, entrepreneurs at various levels including CEO’s, SBU Heads, domain experts, and senior employees in a variety of organizations representing different sectors rooted in India have addressed the students on the unique business, management and
organization level best practices from a macro and micro perspective. The organizations included Virtusa, Biological E Ltd, Laurus Labs, Planet India Remedies Pvt. Ltd., and Dual Rings Pvt Ltd along with the speakers representing NISG, WeHub, Youth4Jobs, Nephroplus, Lean Technocrats, Dhrumataru Consultants, LSI Technologies, PWC India, Marico, Shriram Biosseeds India, WoMentor, WhoLife Financial Services, ELICO Ltd. Besides, visits to historical / heritage places like Charminar, Chowmahalla palace, Golconda fort, Birla temple etc. along with professional service organizations and eatery for cultural immersion also added to the learning / insights of the Indian culture / heritage and habits. AMDISA supported the University of Hyderabad by extending their facility to conduct the session in the week long program.

THERE IS OFTEN A LINGERING OBSERVATION among and about Indian academics about why many, or most, of them do not write, in spite of being good teachers. Could it be because of Vedic culture, where Vedas are recited, not written down! Even in general society, most are comfortable in saying or talking, but not putting it in writing. But the rigour of academics is that unless something is written or published, it is unnoticed. The amount of written and published work in India is far, far less than even by China, a late entrant to modern publishing. We are, of course, catching up of late, but not in the proportion we represent. It is in this context that inculcating a research culture gains prominence.

**Research Culture**

Research, according to Oxford dictionary, is *systematic investigation into and study of materials and sources in order to establish facts and reach new conclusions*. Also added are *discover or verify usefulness for use*. Culture, again from Oxford dictionary, of *manifestation(s) of human intellectual achievements regarded collectively*. And again, *ideas, customs and social behaviour of a particular people or society*.

Now, let us reflect on the blocks needed to inculcate research in institutions and promoting culture. To begin with research, it is essential for academics, scientists and teachers not just to peddle what others have written, but also to create knowledge. In other words, a teacher is also obliged to create knowledge. And research is the instrument for that creation. And culture is the perpetuation of a research bent of mind in colleagues and institutions. When you get a doctorate, the degree is called PhD: doctor of philosophy. Which means you have contributed to knowledge beyond your own narrow specialisation.

It is in this context that academicians, scientists and knowledge workers are different from other professions. Research is often individual but can also be collective, where two or more can work on a problem and produce a common paper. At the extreme, research should come tearing out of the researcher, whatever be the hurdles placed in the way. But in a society where one also should get wages or salary, there can be compulsions. But true research is personal to an individual researcher.

**Building a research culture**

It is here that culture matters, where an enabling environment needs to be created. When I was at the Massachusetts Institute of Technology in the early 1980s for post-doctoral research, I found young PhD scholars publishing in good refereed journals and I was automatically motivated. After four years, when I returned, I did not find most of my colleagues writing and that indeed slowed me down. So you need peer pressure apart from facilities offered by institutions. The first requirement is a guide who can help and secure enough not to treat you as a competitor. M.N. Srinivas, the famous anthropologist, made his students spend at least two years in the society or environment the student needs to study. Dr. Dharni Sinha, former Principal of ASCI, and who began as a student of anthropology in Chicago University, spent two years in an outlandish Papua New Guinea, before qualifying for his doctorate. Real knowledge needs the students to delve the depths and unhurriedly stretch in time.

You also have leaders of research. A.P.J. Abdul Kalam is a classic example. He did not do a PhD, but he could identify people who can do research. He gave them the funds and atmosphere to innovate and do research. Satish Dhawan, who founded ISRO, is another great example. He could not get IITs or foreign-qualified scientists, since the government salary scales were less. But he took qualified scientists from Indian universities and created an organisation which now sends rockets into space.

It is often not known that Jawaharlal Nehru studied Physics at Cambridge, before he became a lawyer. Is it any wonder that he talked of *scientific temper* and created the whole CSIR laboratories and IITs and IIMs? That is leadership. Those who came after Nehru were pigmies in comparison to him and it is becoming difficult even to sustain the institutions Nehru created, let alone creating new and better ones. Leadership, enlightened and broad-minded leadership, is essential to create the research culture society needs.
Building Blocks for Research Culture

It is not just funds, but collaborative and cross-national or cross-institutional research effort. I am involved in a different exercise in fostering research. Management education is not like hard sciences like, Physics and Chemistry where research can be defined more precisely. Here we need to create knowledge from the experience of practitioners and conceptualise. Even very good managers are suspicious of research, saying unless you have practised, you cannot teach. Unless practice is conceptualised it cannot be taught; here is where you need academic support. Conversely, conceptual approach needs to be backed up by practice.

It took more than a decade and half to inculcate research into management schools in India. The regulatory agencies and international organisations have helped in creating a culture where the processes are set up. Accreditation of management schools now depends on the research contributed by teachers. Formation of research committees, which consist of both senior and junior teachers, and regular holding of meetings, their periodicity and recorded minutes have come onto practice.

Apart from individual research, preference is being given to teams of research, often consisting of different disciplines and diversity. International opportunities are also explored where faculty will choose colleagues abroad for cross-national and cross-discipline research. The situation today is that management schools have enormous funds for research and teachers are encouraged to present papers and publish. Academicians and scientists, apart from rising in their own organisations in status, should be known in their disciplines across institutions, even countries.

Conclusion

While research will continue to be individual or in small groups, culture depends on peer pressure and institutional back up. If a paper is published in a research journal, the credit is not only to the author, it is to his or her institution as well. This is the essence of creating research culture.

*(Dr Padam is a former Dean of Studies at the Administrative Staff College of India)*

Management Institutions
Join the AMDISA Network

AMDISA – a value proposition for:

- An ideal environment to build a strong legacy for member organisations
- Promoting networking, exchange of ideas, knowledge and expertise
- Promotion of institution’s programs / conferences / workshops across the network
- Entering AMDISA’s international quality assurance program – SAQS for accreditation.
- Attending the networks notified conferences / workshops / events
- Receiving South Asian Journal of Management
- Newsletter to keep abreast with developments on the network
- Membership Directory

Institutions/Corporates desirous of joining the Association may please apply for membership. For details, please visit our website at www.amdisa.org or write to the Executive Director, AMDISA at execdir.amdisa@gmail.com, execdir@amdisa.org.
